

Don Leggett House

Residential Aged Care

YOUR LIFE
YOUR CHOICE
OUR COMMUNITIES

Live Life Your Way

Life is full of challenges—but age should not be a barrier to living life your way.

Located on a quiet street in Umina Beach, Don Leggett House offers a serene, safe and supported environment for residents to live and enjoy.

The home offers a multitude of lounge areas and balconies for residents to enjoy; not to mention a jam-packed activities program. Our entertainment program is second to none and we are justly proud of what we offer for our residents. Guided by Peninsula Villages' ICCARE values, staff at Don Leggett House are dedicated to ensuring residents live life their way each day.

Our Model of Care

Peninsula Villages' Don Leggett House is a purpose-built facility which caters to varying levels of care, including dementia specific and palliative care.

As an ageing-in-place residence, residents can stay put, even as their care requirements increase. If a higher level of care is required, residents will either stay in their initial unit or move to a unit of the same size and quality in an area where there is a greater staff-to-resident ratio.

Our Living Options

ROOMS

Each modern studio room is comfortable and spacious, with a large bathroom and a generous amount of storage. These units are provided with an 83 cm flatscreen TV, a bar fridge and ducted air conditioning with individual room controls.

COMMON AREAS

Located within the Peninsula Villages facility, Don Leggett House is close to beautifully maintained grounds with our tea house set over the fishpond to enjoy with friends and relatives – you may even spot our fish! There is also a barbecue area for family and friends to visit and enjoy the peaceful surrounds, sit and listen to the birds and the gentle rustling of the trees.

Within Don Leggett House, there are several common dining and living areas for residents to relax and socialise, as they please.

DINING

Dining is a social experience with meals served in a homely environment that promotes interaction and a sense of community. Peninsula Villages is pleased to have an experienced in-house chef who prepares a seasonal menu for residents within our ageing-in-place facilities. Our ethos for our menus is based on providing flavoursome, nutritious meals that foster an enjoyment of food by our residents. All meals are cooked on site and prepared daily.

Your Life, Your Choice

A host of carefully considered on-site amenities and specialist services add to the appeal of this premium community, where you can keep active, supported and entertained.

Dining is a social experience with meals served in a homely environment that promotes interaction and a sense of community. Residents will be able to view, smell and feel part of the entire experience of the daily food preparation routine within their close-knit household.

Testimonials

"After living at Don Leggett House for one year, my compliments are for consistent, impartial, caring nursing care from the staff. They are reliable and worked hard to fulfil their duties and transitioned me into Peninsula Villages living."
